

Traditional Tales

Reading

Please continue to read with your child every day. Once you have read with your child please ensure that you have signed their reading record.

Children's books will be changed when they can read them fluently. Please help your child develop their comprehension by asking them to retell the story and ask questions about the story

P.E.

PE is every Thursday morning. PE Kits must be left in school during the term and taken home for the holidays. We will be focusing on hockey and working as part of a team.

R.E. and P.S.H.E.

This term we will be incorporating Chinese New Year into our celebrations.

In P.S.H.E, we will be looking at our dreams and goals and how we can achieve them.

Rights respecting—Our rights this term are:

Every child has the right to an identity, The right to express feelings and wishes and the right to relax and play.

English

This term we will be learning the story of 'Jack and the Beanstalk'. We will be using story language such as 'Once upon a time' and 'they lived happily ever after', as well as practicing sequencing our stories correctly. We will be saying sentences out loud before writing them and using our sounds to spell. We will have a focus on neat presentation including correct letter formation and including finger spaces between words. We are continuing to practise using capital letters and full stops in the correct places. We will also learn how to write instructions.

Theme

Our topic question this term is 'What traditional tales do I know?'

We will be familiarising ourselves with traditional tales from around the world.

This term we will be focussing on Design and Technology. We are going to be designing and making puppets and making gingerbread men. We will incorporate a strong Science focus looking at materials and their properties. We will be discussing what materials objects are made from asking questions such as what materials float and sink.

Language of the term

Our language of the term is Urdu.

Maths

This term we will be learning about addition and subtraction to 20 and beyond. Please continue to practise number bonds to 10 with your child at home as this will help increase fluency. We will be adding and subtracting numbers and solving problems. Please continue to practise counting to 50 and beyond with your child at home.

We also will be looking at measurement and length. We will be using language including tall taller and tallest. We will be beginning to measure using non-standard units and compare lengths of objects.
