

Parent View

Parent View is an Ofsted website that allows you to comment on your child's school and the education they receive. It is important that as many as possible parents use the website so that we are able to access the site and report on the results.

It is a very simple process to register and add your views. The questions are the same as the ones that you may have completed on paper for us previously.

1 – Type the following address into your search bar or Google 'Parent View'.

<https://parentview.ofsted.gov.uk/register>

Parent View

Your child's school

2 – Add your email address to both boxes.

3 – Check the 'Yes' box to confirm that you are a parent

4 – Press the 'Register now' button

You then need to go to your email that you entered at step 2 above and follow the link.

6 – Click here on 'Give your views'

5 – You can then log-in with your email & new password

Any issues please speak to Mrs Myring

Thank you for your continued support.
